Jackson, Mississippi

**Tom Burnham
State Superintendent**

This publication was produced by the Mississippi Department of Education, Bureau of Management Information Systems. The data in this document are accurate as of January 3, 1994. Correspondence concerning this publication should be directed to: Management Information Systems, P.O. Box 771, Jackson, MS 39205.

**STATE OF MISSISSIPPI
DEPARTMENT OF EDUCATION**

TOM BURNHAM, Ed.D.
State Superintendent of Education

January 4, 1994

To the Legislature of the State of Mississippi:

In accordance with the requirements of Section 37-3-11 of the Mississippi Code of 1972, Annotated, I am pleased to submit to you the annual report of the State Superintendent of Education for fiscal year 1992-93.

As State Superintendent of Education, let me take this opportunity to share with you State Department of Education goals and priorities for public education in 1994.

As you are very much aware, we live in a rapidly changing world. The work force is likewise required to change. It concerns me that too many of our students are graduating from high school with no relevant skills to be contributing citizens in this changing environment. I ask you to join me in meeting the challenge facing our schools. We must increasingly alter our education systems in ways to meet today's new demands.

We are currently in the first year of our Tech Prep initiative. The response from the 15 participating sites has been positive. For school year 1994-95 we feel an additional 50 to 100 sites can be started with a small initial appropriation. This program is exciting and is changing the structure of our high schools.

For the last two years, local school districts have benefited immensely from the Education Enhancement Fund. It is imperative that we educators demonstrate the proper and most efficient use of this new money. We must increase our accountability to the general public. The State Board of Education will soon release the "Mississippi Report Card" on every school district in the state. This example of increased accountability will provide the public information on several performance indicators of their local districts.

Another example of changing the way we do things is in the area of administrator training. I think we need to overhaul completely the way we train. A revamped program must include training in conflict resolution, managing human resources and consensus building. I have started this process and I encourage the Legislature to support us in strengthening this important link in the education chain.

I am encouraged about the imminent changes in the accreditation system. As levels 4 and 5 begin to take shape there will be new instruments used to determine a district's accreditation level. Again I ask the Legislature's support as we move into a more effective assessment system.

This is an exciting time to be an educator. We have many opportunities to enhance the education of our citizens. I look forward to a close working relationship with the Legislature in meeting these challenges.

Sincerely,

A handwritten signature in cursive script that reads "Tom Burnham".

Tom Burnham
State Superintendent of Education

1992-93*	518	207	8	94	131	964

*Because of the variety of grades within schools it is impossible to categorize all schools in Mississippi as Elementary or Secondary. Therefore schools will be categorized as:

Elementary (K-8)
Combined Elementary and Secondary (K-12)
Secondary (7-12)
Special Education
Vocational-Technical Education

**The number of schools varies from other reports in this publication because resource schools without students are included in this report only.

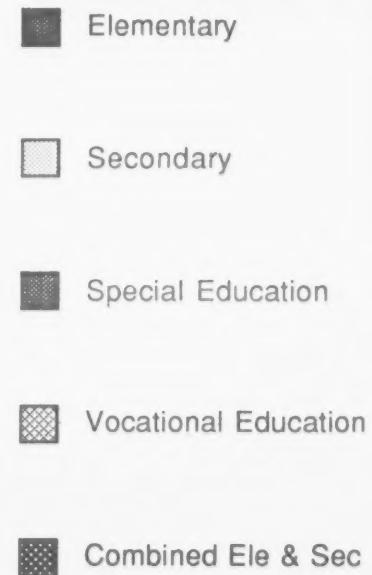

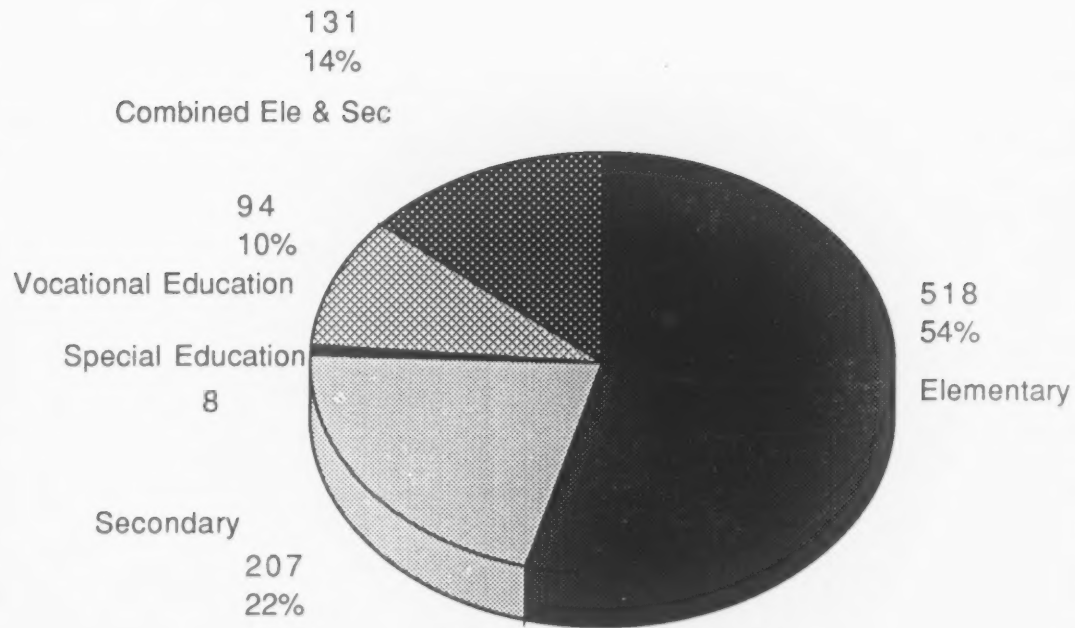

**SCHOOL ACCREDITATION
1992-93**

School year marked the beginning of assigning school districts accreditation levels rather than accreditation statuses. Accreditation levels assigned were **Accredited-3, Accredited-2 and Accredited-1-probation**. An assignment of Accredited-3 confirms that the school district is in compliance with 100% of all process and performance standards. An assignment of Accredited-2 confirms that the school district is in compliance with 100% of all process and 70% to 99% of the performance standards. An assignment of Accredited-1-probation confirms that the school district is in compliance with less than 100% of the process standards and/or less than 70% of performance standards. In December of 1992, the Commission on School Accreditation assigned the following accreditation levels to 153 school districts (including four agricultural high schools):

Accredited-3	100
Accredited-2	30
Accredited-1-probation	20

Of the 20 districts assigned Accredited-1-probation, 11 of these were placed on probation for **noncompliance with the performance or outcome standards**. The state accreditation system remained voluntary for nonpublic and special schools in the state. During the 1992-93 school year, the Commission on School Accreditation accredited **41 nonpublic schools and 15 special schools**.

MISSISSIPPI SCHOOL FOR THE BLIND

The Mississippi School for the Blind (MSB) has as its mission to provide specialized residential and day instructional programs which enhance the intellectual, social, physical, and vocational development of visually impaired children and youth, ages birth to 21 years. This mission has remained constant since MSB was established in 1848 by an act of the Mississippi Legislature. The mission is accomplished through the combined effort of the State Department of Education, the School's administration, teachers, residence education personnel, support staff, students, parents, and supporters throughout the state. The Mississippi School for the Blind serves any eligible student without regard to the child's economic status, religious affiliation, ethnic background, or sex.

FACILITIES

The School consists of twelve (12) buildings. These are:

1. Elementary/Secondary Building. This building serves as the primary site for academic instruction.
2. Superintendent's Residence. This facility was abandoned in January, 1992, due to its advanced state of deterioration.
3. Benton House. This facility was formerly used as an independent living training center. It is now the "temporary" residence of the MSB Superintendent.
4. Recreation, Mobility, and Work Study. These areas are portable buildings which were moved to the campus from another location approximately 20 years ago. All are in poor repair.
5. Home Economics. This area is a double-wide trailer that is more than 20 years old.
6. Vocational Instruction. This building contains the music department, industrial art shop, and the business education program.
7. Canteen. This building contains a snack bar and vending machines.
8. Administration Building. This building houses the offices of the Superintendent, Residence Education Director, Admissions Director, Preschool/Homebound Staff, Instructional Resources Center, and Vocational Rehabilitation Counselor. The Basic Skills Program for low functioning multihandicapped students is also located in this building.
9. Guest Quarters. These areas include one double-wide trailer which sleeps six persons and one single-wide trailer which sleeps four persons. Both trailers are more than 20 years old and are in need of repair.
10. Female Student Residence. This building was abandoned in 1990 because of its advanced state of deterioration. Female MSB students are housed in Burt Hall on the MSD Campus.
11. Male Student Residence. This building recently underwent major interior renovation and repair.
12. Boy Scout Hut. This building is currently being used as a weight conditioning area for MSB and MSD athletes.

TYPES OF PROGRAMS/SERVICES

A. CAMPUS BASED INSTRUCTION

1. Regular Program

MSB provides a program of instruction for eligible students in grades K-12. The curriculum meets standards for graduation established by the State Board of Education and includes courses which are compatible with those offered by most local public school districts. Specialized courses such as braille, daily living skills, and orientation and mobility are also provided. Special emphasis is placed on concept development, tactile and auditory discrimination, and low vision training.

2. Prevocational Program

This program provides sequential instruction for eligible students who lack the capacity to earn a regular credit-based academic diploma. The purpose of this program is to enable students to acquire the skills necessary to become independent adults. Emphasis is placed on skill development in the areas of English/communication, basic mathematics, general science, and social science. Specialized courses such as braille, daily living skills, orientation and mobility, tactile and auditory discrimination, career education, and work adjustment are provided.

3. Basic Skills Program

This program addresses the needs of students who have learning potentials which are severely limited due to the presence of more than one diagnosed disabling condition. The curriculum is designed to assist students to reach their highest potential for living and working, and includes skill training and activities in the areas of communication, pre-academics and functional academics, basic self-help, personal maintenance, grooming, sensory and motor development, socialization skills, and domestic living skills.

4. Residence Education Program

MSB is "home away from home" during the academic year for the majority of its students. Every effort is made to assure that resident students are provided a safe and enjoyable atmosphere in which to live and learn. The residence staff, which has the responsibility of providing for the physical well-being of students at all times other than regular school hours, also serves as tutors and provides other types of support to the instructional program.

B. CAMPUS BASED SERVICES

1. Low Vision Clinic

The Low Vision Clinic provides consultative services for children whose vision is not correctable through the use of conventional prescription lenses. All children in Mississippi are eligible for services as long as: (1) they are between the ages of birth and 21 years, (2) they have visual limitations which cannot be corrected by prescription lenses, or demonstrate significant visual field restrictions, (3) they are enrolled in a preschool, elementary, or secondary program, and (4) they are legal residents of the State of Mississippi. Services provided include: (a) visual assessment, (b) evaluation of functional visual acuity, (c) low vision aids loan program, (d) training and follow-up support in the use of low vision aids, and (e) eye reports and written low vision reports with specific suggestions for teachers and/or parents.

The Low Vision Clinic served a total of ninety (90) children who were not enrolled at MSB during the 1991-92 school year. These children resided in, and in most cases, attended school in the following locations:

Aberdeen	Fox Run	Olive Branch
Amory	Hollandale	Oxford
Avon	Hudspeth	Pascagoula
Bay St. Louis	Indianola	Pass Christian
Biloxi	Jackson	Pearl
Bogue Chitto	Leakesville	Philadelphia
Brandon	Little Rock	Picayune
Canton	Madison	Potts Camp
Carthage	McComb	Prentiss
Clinton	Meadville	Sandersville
Columbus	Meridian	Senatobia
Corinth	Moss Point	Star
Crystal Springs	MSD	Vicksburg
Decatur	Natchez	Willowood
Ellisville	Ocean Springs	Yazoo City
Fayette		

2. Instructional Resources Center

MSB serves as the clearinghouse and repository for large print and braille textbooks for the State Department of Education. The Center is supported by state and federal funds. Textbooks are provided on a free-loan basis to blind and visually impaired students who attend public and private schools in districts throughout the state. The center served a total of 350 students during the 1991-92 school year.

C. COMMUNITY BASED INSTRUCTION

1. Preschool/Homebound Program

The Preschool Program serves any eligible visually impaired child between birth and five years of age. Services are provided at no cost to the children with the aim of preparing them for entrance into appropriate classroom learning situations. The staff strives to address the specific developmental needs of each child, as well as to instruct parents in methodology needed to enhance their child's overall development. During 1991-92 the program served a total of 37 children.

2. Technical Assistance Outreach Program

MSB staff members assist teachers and administrators in local school centers, Headstart centers, state agencies, and private programs in planning and implementing instructional programs for visually impaired children. Interagency agreements were in effect the following entities:

a. School Districts

Amory	Harrison Co.	Lumberton
Biloxi	Hattiesburg	North Panola
Choctaw Agency	Indianola	Pearl
Cleveland	Jackson	Picayune
Coahoma	Jackson Co.	Poplarville
Desoto Co.	Jones Co.	Simpson Co.
Greene Co.	Lowndes Co.	South Panola
Grenada		

b. Headstart Centers

Bogue Chitto
Nesbit

Holly Springs
Pearl (St. Thomas)

Louisville

c. State Agencies

Beechwood Development Center (Vicksburg)
Gulfport Mental Health Center
Hudspeth Center
MUW Preschool

d. Private Programs

Greenwood Montessori School
Long Beach Montessori School
St. Thomas Catholic School (Vicksburg)

LONG-RANGE PLANS

Long-range planning at MSB is a dynamic process that responds to the changing educational needs of blind and visually impaired children. The seven (7) primary goals addressed in the plan are:

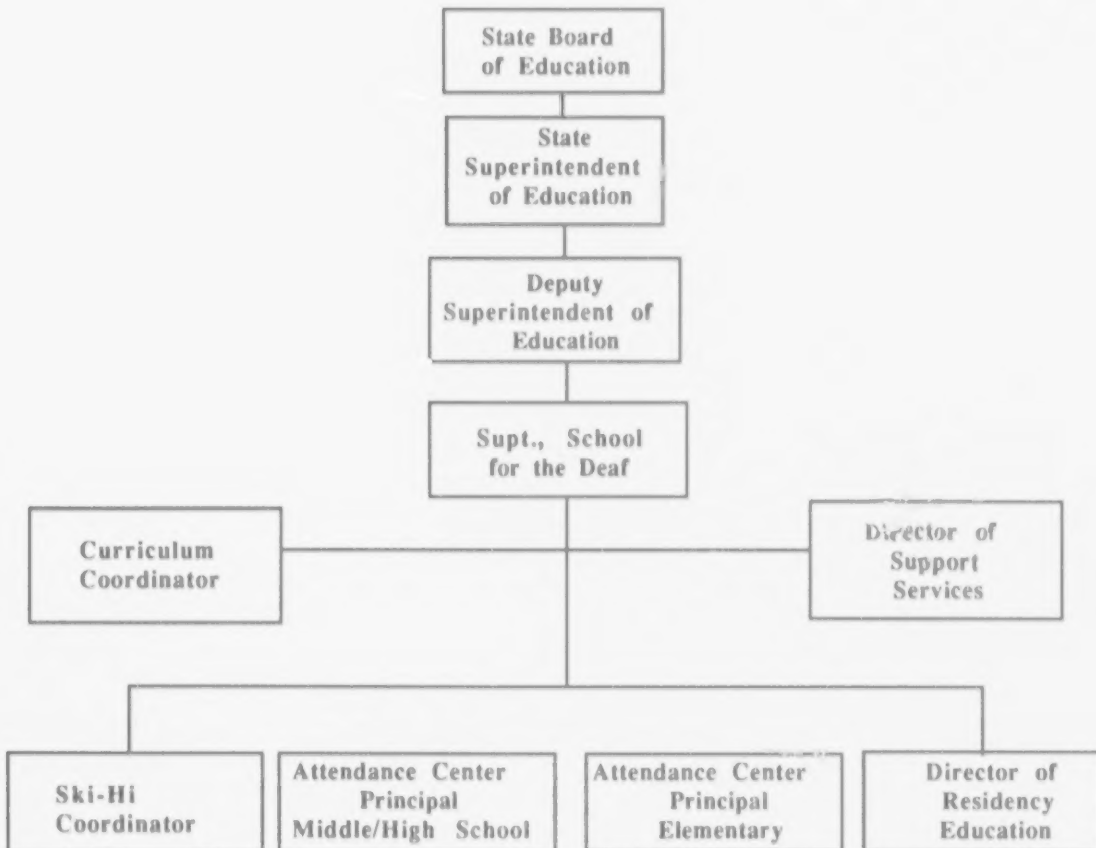

1. To improve the quality and quantity of educational experiences available to the children MSB is mandated to serve.
2. To strengthen the financial base of the MSB through the acquisition of fiscal resources from private sector individuals and groups. The purpose of this goal is to enable the school to provide its students more than minimum opportunities as supplied by state funds.
3. To provide an environment that presents maximum learning and residential living opportunities.
4. To maintain the school's status of full accreditation by the Southern Association of Colleges and Schools.
5. To provide a dynamic curriculum which meets or exceeds the minimum course content at each level as required by the State Department of Education.
6. To expand the scope and content of special programs and services available to visually impaired students and their families statewide.
7. To encourage greater involvement and participation in the operation and activities of the school by parents and other citizens.

MISSISSIPPI SCHOOL FOR THE DEAF

MSD'S MISSION: To provide a comprehensive quality instructional, vocational and residential program coordinated with a system of support services assuring and enabling eligible deaf and hard of hearing students of Mississippi an equal and accessible opportunity to achieve their maximum potentials to become successful, independent and productive citizens.

MSD's program provides a bilingual/multicultural environment whereby the student's social, physical, intellectual, emotional and spiritual development can be fostered.

TYPES OF PROGRAMS/SERVICES

Students from birth to twenty-one have the opportunity to receive services offered by the Mississippi School for the Deaf (MSD).

Students from birth through three years of age are provided services in their homes by the *Ski-Hi Program*. There are 27 students in this program.

Students from four through five years of age are provided services by the *Pre-School/ Kindergarten Program*. This program consists of three sections: Prep I and Prep II. There are 13 students in this program; 0 are day students and 13 are residential students.

Students from six through thirteen years of age are provided services by the *Elementary School Program*. This program consists of grades one through six. There are 63 students in this program. The elementary school provides services to 11 day students and 52 residential students. Placement of students within the academic program depends on communication and academic ability, not age. Therefore the transition ages within the academic and residence programs are not the same for all students.

Students from eleven/thirteen through twenty-one are provided services by the *Junior High School and High School Programs*. These programs consist of grades seven through twelve and provide services for 38 junior high and 39 senior high students.

There are 5 day students and 33 dormitory students in the Junior High School. Home Economics and Computer Programs are available to ninth grade students. These programs offer basic skills and "hands-on" experiences.

There are 11 day students and 28 dormitory students in the High School. These students are able to pursue vocational, academic, or certificate programs. Vocational students receive certification in the chosen area upon completion of requirements. Academic students receive a diploma upon completion of requirements. Certificate students receive a certificate of completion. The Academic Program is provided by certified teachers. Course offerings follow State Department of Education guidelines. The presentation level of subject matter is based on the students Individualized Educational Program (I.E.P.) level of performance. Vocational programs are available to students in grades ten, eleven, and twelve, and consist of: (1) Graphics Arts, (2) Food Services, (3) Maintenance/Horticulture, (4) Auto Body, and (5) Business and Office Machines. There are 39 students in the vocational programs. Drivers education is provided at the high school level. Life skills classes in the various subjects are offered and are designed to accommodate the student's level of language development.

A State testing program is followed, coordinated by the Academic Guidance Counselor, which provides information concerning student's academic ability in comparison with hearing impaired and non hearing impaired students.

An activity period provides students with the opportunity to participate in such activities as Student Council, Junior National Association of the Deaf, Modeling Club, Science Club, Drama Club, Beauty Pageant, Yearbook Committee, and Etiquette Club.

The Athletic Program is based on the requirements of the Mississippi High School Activities Association. Football, basketball, track, cheerleading and volleyball are offered to high school students. Junior High and Pee Wee training programs for basketball are also offered.

The Residence Program provides development of study skills, set study hours, development of social skills, and development of communication skills (most students come from homes where family members have little or no formal signing skills). A Student Work Program is also provided which gives students the opportunity to work for local businesses. The student receives compensation for the work and gets a better insight into the world of work.

Both the Residence and Academic Programs use the Support Services Program. This program provides assessment, speech, audiology, social welfare, and counseling services. A special coordinator serves to facilitate the I.E.P. process and to encourage parents to become actively involved in their child's educational process. We also work closely with the parent organization.

Staff Development Programs are administered according to the SDE guidelines. These programs provide training in the areas of curriculum development, parenting, student management and communication skills in American Sign Language (ASL) for MSD Staff.

Related services such as transportation, medical, maintenance and food service are provided by Combined Services. Financial operations are under the direction of SDE.

FACILITIES

BAILEY HALL. Constructed to house the administration offices, the cafeteria and academic programs for grades 6 through 12. Robert's Gymnasium is connected to this two story complex. Other programs in this building include the Vocational Business and Practices trade area, the Home Economic Training area, the library and media areas.

PRIMARY BUILDINGS: Constructed to accommodate the academic programs of K-5, the administrative offices, speech department, audiologist and home-based program with media and library areas.

DORM A: Constructed to house young female students, ages five to twelve. Fully equipped facility with living quarters, activities area and apartments for staff.

DORM B: Same as above except houses young male students, ages five to twelve.

DORM C: Same as Dorm A & B except houses both male and female students in separate wings, ages 13-15.

SAUNDERS HALL: The home for older girls, aged 15-21. Two story complex fully equipped with living quarters, activity areas and staff apartments.

DOBYNS HALL: The home for older boys, ages 15-21. Two story complex fully equipped with living quarters, activity areas and staff apartments.

RECREATION BUILDINGS: Buildings modified from original construction to accommodate the recreation program at MSD. The area is equipped with snack bar, vending machines, sound system and table games. Activity areas offers viewing of television programs and dance areas.

BROWN COTTAGE: A single story woodframed structure with aluminum siding used to house the Alternative Learning Center. Presently used as temporary housing for the new Elementary Principal.

SUPERINTENDENT'S RESIDENCE WITH LAUNDRY AND GARAGE: Built to accommodate the Superintendent and his/her family while presiding over the operations of the Mississippi School for the Deaf. The Superintendent is required by law to live on campus.

CABANISS HALL, BURT HALL AND OTHER ON-SITE STRUCTURES ARE REPORTED BY COMBINED SERVICES.

VOCATIONAL COMPLEX INCLUDES:

VOCATIONAL BUILDINGS/V.R. ANNEX. The present Vocational Building/V.R. Annex is a two story building that contains areas for warehousing and instructional space for the Vocational trade areas of Graphic Arts and Vocational Buildings and Grounds Maintenance/Horticulture. Also, in this complex is the Vocational Curriculum Coordinator's office and the Vocational Evaluation unit.

VOCATIONAL BODY AND FENDER REPAIR BUILDING. A metal structure built to accommodate the vocational trade area of Auto Body and Fender Repair and Painting.

VOCATIONAL FOOD SERVICE AREA. A portable building that houses the Vocational Food Service trade area. Originally the Recreation Building.

LONG RANGE PLANS

The Academic Program will be expanded. These expansions will occur through, but not be limited to: Ski-Hi (provisions/staff), Curriculum (integrated/continuous development), and Vocational programs (pre-vocational and "on-the-job" placement). Available resources and services located at MSD will be evaluated to determine how they can be made available to the entire state. MSD will become a major resource for services and/or staff development training needed by instructors of the hearing impaired and students throughout the state.

Due to the age and condition of the current facility, a new plant is needed.

Assistance for special needs students will be addressed through the addition of a multi-handicapped class, however, there is a growing need for more services for MHHI that will require new staff and funds. We also have association with Vocational Rehabilitation and other agencies that address job placement and /or independent living skills.

Development of a Parent and Public Training Program relative to the need of early intervention and training of hearing impaired children will be developed.

A continuous "Upgrade and Expansion" Program for staff growth and development has been implemented.

An evaluation process to assist in regulating all the components of the program will be established.

**BUREAU OF COMBINED SERVICES
MISSISSIPPI SCHOOL FOR THE BLIND
MISSISSIPPI SCHOOL FOR THE DEAF**

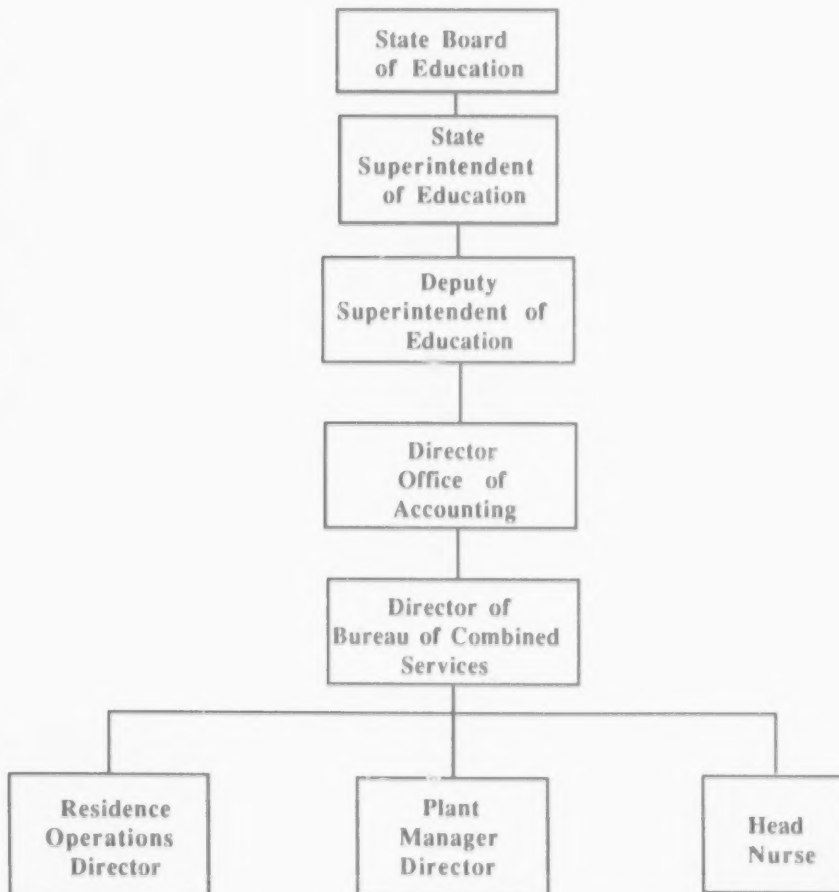

PURPOSE

Section 43-5-1, Paragraph 2, of the 1990 Supplement, Mississippi Code reads as follows:

(2) The provisions of this section shall not be construed to require any consolidation of combination of the Mississippi School for the Deaf and the Mississippi School for the Blind other than where economies can be realized through the common utilization of maintenance personnel and equipment, physical facilities, vehicles and administrative personnel, where the same can be done without impairment of the effectiveness of the educational programs of the two(2) institutions or the welfare of the students.

With this direction, the Bureau of Combined Services of the Mississippi Schools for the Blind and Deaf is organized with the intent of purpose to support the superintendents and staffs so that they can concentrate on the welfare and education of the students.

ORGANIZATIONAL STRUCTURE

STAFF

Bureau Director	1
Secretary, Administrative	1
Secretary Principal	1
Maintenance	9
Housekeeping	9
Health	5
Security, part-time	2
Transportation	From existing staff

CONDITIONS OF FACILITIES

MISSISSIPPI SCHOOL FOR THE BLIND

- Boy's Dormitory - good condition: construction year, 1979;
- Six Portable Units - very poor condition;
- Program Buildings (academic & adjoining shop areas) - poor condition with cracks due to Yazoo clay: construction year, 1949;
- Girl's Dormitory - unusable due to determination of damage to service lines. Damage caused by foundation shift. The students are housed in a dormitory on the School for the Deaf site.

MISSISSIPPI SCHOOL FOR THE DEAF

- Dormitories A, B, and C - good condition, construction year, 1979;
- Recreational/Mechanical Building - good condition, construction year, 1979;
- Two Portable Units - very poor condition;
- Vocational-Technical Annex - fair condition;
- Program Buildings (academic and adjoining shop area) - fair condition, construction year, 1949;
- Other Dormitories - poor condition, construction year, 1949;
- Central Operations Building (finance, personnel, support services for MSD, a former dormitory - fair condition, construction year, 1949.

LONG RANGE PLANS

- Existing buildings provide adequate space for the current student enrollment;
- Portable units are to be phased out, as feasible;
- Preventive maintenance schedule costs are being stressed to their limit due to ever increasing breakdown of the over all infrastructure of the buildings and mechanical operation;
- Staff can not adequately respond to the old infrastructure and maintain buildings on campus;
- Existing building's utilization limits the delivery of an updated curriculum and residential program. A related factor is an increase in number of students with multi-handicaps enrolling;
- All of the above is considered in the continuing study for recommendations of a new facility program for the Mississippi Schools for the Blind and the Deaf. MSB/MSD should be model program for visually and hearing impaired students; without major renovation or new facilities, this can not happen.

PUBLIC SCHOOL BUILDING FUND
1992-93

The Public School Building Fund was created to provide state funds for the capital improvement of schools in the State. Such capital improvements include the cost of erecting, repairing, equipping, remodeling and enlarging school buildings and related facilities.

The financial structure of the state public school building fund is made up of three interlocking, yet distinct features: (1) annual grants to school districts; (2) legislative funding of the program; and (3) state school bonds. The State Board of Education approved building projects as follows during 1992-93:

	<u>Number Approved</u>	<u>Total Cost</u>	<u>Public School Building Funds</u>
Long Range Plans	59	\$126,695,838	
Applications	77	16,453,846	\$ 9,477,385
Supplementary Applications	3		61,453
Contracts	49	8,552,035	5,751,921
Change Orders	37	703,914	(10,608)
Final Project Approvals	34	8,623,500	3,806,254

Additional support for capital improvement of schools has been provided on the local level through local bond elections. The following shows the results of local bond elections during 1992-93:

<u>School District</u>	<u>Amount</u>	<u>Passed/Failed</u>	<u>Percentage of Voters For / Against</u>
George Co.	\$ 5,300,000.00	Passed	72% / 28%
Itawamba Co.	5,000,000.00	Failed	59% / 41%

(BSAP)**

**FUNCTIONAL LITERACY EXAMINATION
(FLE)**

SUMMARY OF THE 1993 MISSISSIPPI STATEWIDE TESTING PROGRAM

Spring FLE

There was a decrease in scaled scores for mathematics, written communication, and composite from 1988 to 1989, decreases in reading and written communication from 1989 to 1990, and a decrease in mathematics from 1990 to 1991. Moderate increases were posted in reading for 1988-89, 1990-91, 1991-92 and 1992-93. A significant increase of over four points in mathematics was observed in 1989-90, and increases were posted in written communication every year except 1988-89 and 1989-90. Over the six-year period from 1988 to 1993, there were net increases in all subject areas, with a significant increase of over five points in the composite score.

In terms of passing rates on the FLE, the percentage of students passing the reading test on the first attempt increased from 94% in 1988 to almost 96% in 1992, but dropped slightly to about 95% in 1993. The percent passing mathematics increased from about 89% in 1988 to over 93% in 1991 (about 91% passed mathematics on their first try in 1993). In written communication, the percentage passing dropped from 95% in 1988 to 93% in 1989, then increased slightly each year to 96% in 1992, but dropped slightly to 95% in 1993. The percentage of students passing the entire FLE on the first attempt has increased steadily from 1988 to 1992; however, the percentage dropped slightly in 1993 to 94%. The number of students taking the Spring FLE for the first time decreased significantly from 1988 to 1989 and from 1989 to 1990. This may be due to an increase in the number of students electing to earn a certificate rather than a diploma once the FLE was required for graduation.

Grade 4 SAT

The decrease in scores from 1988 to 1989 was followed by steady improvement in all subject areas each year from 1989-90 through 1992-93. The net change over the six-year period was positive in all subject areas, with a significant increase of about 3 points in mathematics. However, the performance of Mississippi students is considerably lower in reading than it is in mathematics or language. In 1993, the mean NCE scores slightly exceeded the national average (50.0) in mathematics and language but were significantly below the national mean in reading.

Grade 6 SAT

There was a substantial decrease in all subject areas from 1988 to 1989, a significant increase in language from 1989 to 1990, substantial increases in all subject areas from 1990 to 1991, and moderate increases in all subject areas from 1991 to 1992 and again from 1992 to 1993. The net change over the six-year period was less than one NCE point in reading, about two NCE point in mathematics, and three and one-half NCE points in language. The performance of Mississippi students is considerably lower in reading than it is in mathematics or language. In 1993, the mean NCE scores were at the national average (50.0) in mathematics and language but were significantly below the national mean in reading.

Grade 8 SAT

There were increases in mathematics from 1989 to 1990 and from 1990 to 1991, a small decrease from 1991 to 1992 and an increase of one NCE point from 1992 to 1993. Reading posted no change from 1989 to 1990, a slight increase from 1990 to 1991, a slight decrease from 1991 to 1992, and an increase of almost one NCE point from 1992 to 1993. The net change over the five-year period was slightly more than half a point in reading, over three NCE points in mathematics, and about two points in language. The performance of Mississippi students is

considerably lower in reading than it is in mathematics and language. In 1993, the mean NCE scores were at the national average (50.0) in mathematics and language but were significantly below the national mean in reading.

Algebra I

The state scaled score mean for 1993 was 200.3, an decrease of 0.2 over 1992. The mean percentage of correct items ranged from 53.8% to 68.4% across skill groups. Overall, these results indicate positive results on the subject area test, since the test content is designed to measure a wide range of course objectives and is not concentrated in the basic skills as is the FLE.
